

MINISTAR* CABINETS

Example of our electrical integration solution

Ministar* cabinet is one of our Outdoor Plant Cabinet (OPC) cabinets, that offers a removable lid with optional gear mounting.

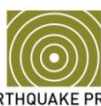

The EcoStar* generation offers three point contact, flush face door locks, a variety of cooling systems and is rated IP55. Robust extrusions and thick marine grade aluminium panel work have a proven track record in NZ exceeding 30 years continuous service.

LIST OF APPLICATIONS:

Telecommunications, BTS, traffic management, lighting control, radio repeaters, power distribution systems, SCADA control centres and other areas where space, security, environment and landscape become a concern.
